

UNIFIED ENDPOINT MANAGEMENT

A product that pays for itself through energy savings

IPM+ UEM FEATURES

ENERGY SAVINGS

- > Up to 50% energy savings
- > Certified soft energy meter with 90%+ accuracy
- > Completely customizable dashboards and reports
- > Extensive sustainability metrics, reports and analytics
- > No performance interference as proven by leading benchmarks
- > Patented application sensors for non-intrusive experience
- > Reduction in cooling costs due to less heat generation
- > Enhanced HW health with less heat generation
- > Enhanced productivity by battery life extension

PATCH MANAGEMENT

- > Fully automated 3P, security updates and OS patches
- > Bandwidth throttling control for low-bandwidth networks
- > Scheduled patching
- > Extensive reporting & dashboards
- > Real-time critical patching
- > Supports linux & windows flavours
- > Missing patch monitoring
- > Patch rollbacks

POLICY COMPLIANCE

- > 100's of canned policies
- > Extensible policy implementation framework
- > Real-time audits on policy and compliance
- > Remediation framework for deviations
- > Custom policy scripting
- > Automated deviation re-enforcement
- > Customizable audit and compliance dashboard
- > Out of box CIS level 1 compliance & NIST extensions
- > Extensive reporting and analytics

PRODUCTIVITY MANAGEMENT

- > Login-Logout & attendance reporting
- > Team & employee productivity reporting
- > Active-inactive-productive time tracking
- > Application usage reporting
- > File usage tracking
- > Daily timeline activity
- > Browsing history reporting
- > Productive & non-productive browsing
- > Fine grained tracking for low productivity
- > Webcam liveness checks
- > Adaptive screen capturing
- > Shift-wise productivity
- > Idleness insights

ASSET MANAGEMENT

- > Asset inventory management
- > Advanced asset lifecycle management
- > HW utilization tracking
- > Depreciation, capex and opex tracking
- > Asset self-certify campaigns
- > Geo tagging
- > Advanced HW health tracking
- > Service / warranty / AMC tracking
- > Asset hierarchy management
- > Application blocking
- > Maker-checker workflows
- > HW performance tracking
- > Blacklisting & Whitelisting
- > SW license tracking
- > Auto discovery
- > 100+ downloadable reports
- > Printer management
- > Custom dashboarding
- > Actionable intelligence dashboards
- > Paper use tracking
- > Paper quota management
- > Cartridge health management
- > Genuine OS and SW tracking
- > Remote remediation
- > Reboot and error tracking
- > AV & firewall monitoring
- > Security management
- > System & app error tracking
- > Reboot status
- > Windows license expiry alerts
- > MS office license management
- > Installed hotfix ID details

A **unified console** with a single agent for everything about your endpoints' HW health, performance, utilization, SW licensing status, productivity, security, policy compliance, patching status and carbon footprint

IPM+ Helps You,

- ✓ Save up to 50% energy non-intrusively with Patented AI PowerMind engine
- ✓ Reduce IT helpdesk tickets and operating costs by up to 20% by using smart ITAM++ features
- ✓ Enhance organizational policy compliance by up to 30% and proactively detect vulnerabilities
- ✓ Secure your endpoints with latest security updates and patches even in low-bandwidth networks
- ✓ Self-adapting employee productivity management to enhance productivity by up to 25%

WHAT MAKES IPM+ UNIQUE

- Only product that pays for itself
- 7 US patents
- Proven scalability to 300,000 endpoints across 25,000 locations
- 100% Made-In-India product
- Featured in State Bank of India annual reports for 7 years in a row
- Leading industry standard security & 3P certifications
- NO production INCIDENTS in largest installation over 7 years

OUR CERTIFICATIONS

- DRDO BEL CRL independent Certification
- The Energy Resource Institute (TERI), India
- VAPT certified by CERT-IN empaneled auditors, Ministry of IT, government of India
- Protiviti Inc. certification on energy savings and metering accuracy
- Department of IT/BT, Government of Karnataka, India

IPM+ Features in SBI Annual Sustainability Reports Every Year

FY 2022 - 23 Annual Report Page 59 from SBI

Specific initiatives or used innovative technology or solutions to improve resource efficiency, or reduce impact due to emissions / effluent discharge / waste generated

Sr. No	Initiative undertaken	Details of the initiative	Outcome of the initiative
	Intelligent Power Management (IPM+) implementation	The Bank uses its IPM+ utility software on office desktops across India which helps in 'green computing' and achieve a strong return on investment through IT operating cost reduction.	Total energy saving of 13.41 I GWh and GHG emissions avoided by 13,413.4 MICO,e.

IPM+ saves consistently year after year for SBI - 300,000+ endpoints

2016-17	2017-18	2018-19	2019-20	2020-21	2021-22	2022-23
10 GWH Savings	9.2 GWH Savings	13.2 GWH Savings	11 GWH Savings	9 GWH Savings	10 GWH Savings	14 GWH Savings
